설치 안내

Important!

You will need to adjust this product after installation is complete. **Make sure all your equipment is properly installed on the product before attempting adjustments.** This product should move smoothly and easily through the full range of motion and stay where you set it. If movements are too easy or difficult or if product does not stay in desired positions, follow the adjustment instructions to create smooth and easy movements. Depending on your product and the adjustment, it may take many turns to notice a difference. Any time equipment is added or removed from this product, resulting in a change in the weight of the mounted load, you should repeat these adjustment steps to ensure safe and optimum operation.

Important! You will need to adjust this product after installation is complete. **Make sure all your equipment is properly installed on the product before attempting adjustments.** This product should move smoothly and easily through the full range of motion and stay where you set it. If movements are too easy or difficult or if product does not stay in desired positions, follow the adjustment instructions to create smooth and easy movements. Depending on your product and the adjustment, it may take many turns to notice a difference. Any time equipment is added or removed from this product, resulting in a change in the weight of the mounted load, you should repeat these adjustment steps to ensure safe and optimum operation.

IMPORTANTE Una vez instalado, este producto necesita ajustes de tensión. Antes de probar la amplitud del movimiento o realizar los ajustes de tensión, cerciórese de que todo el equipo está bien instalado en el producto. Cada vez que añada o cambie equipos en este producto y cambie el peso, deberá repetir los ajustes para garantizar un funcionamiento seguro y óptimo. Este producto debería moverse sin brusquedad y con facilidad dentro de la amplitud de movimiento permitida, y mantenerse donde usted lo fije. Si cuesta trabajo moverla, o si la unidad no se queda en la posición en que usted la deja, siga las instrucciones de ajuste para aflojar o apretar la tensión de forma que el movimiento sea uniforme y fácil. Dependiendo del producto y el ajuste, es posible que deba hacer varios intentos hasta poder observar la diferencia.

IMPORTANT ! La tension devra être ajustée une fois l'installation de ce produit terminée. Assurez-vous que tous les équipements sont correctement installés sur le produit avant d'ajuster la plage de mouvement ou la tension. À chaque fois que du matériel est ajouté ou modifié sur ce produit (ce qui entraîne un poids monté différent), vous devez répéter les étapes de réglage afin d'assurer un fonctionnement sûr et optimal. Ce produit doit pouvoir se déplacer aisément et sans problème sur toute la plage de mouvement définie et rester à la position que vous avez choisie. Si le déplacement s'avère difficile ou si le produit ne reste pas en position, suivez les instructions de réglage pour desserrer ou serrer la tension afin de favoriser un déplacement fluide et facile. Selon le produit et le réglage que vous utilisez, il faut parfois effectuer plusieurs tours de vis avant de remarquer une différence.

WICHTIG! Bei diesem Produkt muss nach der Montage die Spannung eingestellt werden. Vor der Anpassung von Bewegungsumfang oder Spannung sicherstellen, dass die gesamte Ausrüstung sachgemäß auf dem Produkt montiert wurde. Sobald Geräte zu diesem Produkt hinzugefügt oder geändert werden, wodurch sich ein anderes Gewicht ergeben kann, sollten die Anpassungsschritte wiederholt werden, um einen sicheren, optimalen Betrieb zu gewährleisten. Dieses Produkt sollte sich über den gesamten Verstellbereich gleichmäßig und leicht anpassen lassen und an der eingestellten Position verbleiben. Sollte es bei dieser Bewegung Schwierigkeiten geben oder das Produkt nicht am eingestellten Punkt fixiert bleiben, ist die Einstellanleitung zu befolgen und die Spannung entsprechend zu lockern bzw. anzuziehen, um eine geschmeidige, reibungslose Bewegung zu erhalten. Je nach Produkt und Einstellung muss dies mehrmals wiederholt werden, um einen Unterschied zu bemerken.

BELANGRIJK! Bij dit product is spanningsaanpassing nodig wanneer de installatie is voltooid. Zorg dat alle apparatuur juist aan het product is bevestigd voordat u bewegingsbereik- of spanningsaanpassingen maakt. Elke keer wanneer er apparatuur wordt gewijzigd of aangepast aan dit product wat tot een verschil in bevestigd gewicht leidt, moet u de aanpassingsstappen herhalen voor veilig en optimaal functioneren. Dit product moet soepel en gemakkelijk bewegen in het hele bewegingsbereik en de ingestelde positie moet gehandhaafd blijven. Als het bewegen moeilijk gaat of het product blijft niet in de ingestelde positie, volg dan de aanpassingsinstructies om de spanning te vergroten of verkleinen voor soepel, gemakkelijk bewegen. Al naargelang uw product en de gewenste aanpassing, kunnen er veel slagen nodig zijn om verschil te merken.

NOTA BENE. Questo prodotto richiede regolazioni della tensione una volta completata l'installazione. Accertarsi che tutta l'attrezzatura sia appropriatamente installata sul prodotto prima di cercare di regolare l'intervallo di movimento o la tensione. Ogni volta che si aggiunge un apparecchio a questo prodotto o lo si modifica, variando quindi il peso del carico fissato, ripetere questa procedura di regolazione per garantire il funzionamento ottimale e in sicurezza. Questo prodotto deve essere spostabile in modo regolare e agevolmente per la sua intera corsa e rimanere fermo quando se ne rilascia il dispositivo di regolazione. Se risulta difficile regolare la posizione o il prodotto non rimane nella posizione desiderata, seguire le istruzioni per ridurre o aumentare la tensione di bloccaggio affinché il movimento risulti agevole e facilmente regolabile. A seconda del prodotto e del tipo di regolazione, possono essere necessarie più corse prima di notare una differenza.

VIKTIG! Den här produkten kräver spänningsjustering när installationen har slutförts. Kontrollera att all utrustning är korrekt installerad på produkten innan du justerar rörelse eller spänning. När utrustning läggs till eller ändras på den här produkten och detta medför en ändrad, monterad vikt, ska du alltid upprepa justeringsmomenten för att säkerställa säker och optimal drift. Den här produkten ska röra sig jämnt och enkelt inom hela rörelseområdet och stanna kvar där du placerat den. Om rörelserna är svåra att utföra eller om produkten inte stannar kvar där du placerat den ska du följa justeringsanvisningarna och minska eller öka spänningen för att skapa en jämn och lätt rörelse. Beroende på din produkt och justeringarna kan det ta flera varv innan du märker någon skillnad.

重要! この製品は取り付け完了後に張力の調節が必要です。製品を動かしたり張力調節をする前に、必ずすべての装置が製品に正しく付けられていることを確認してください。装置を追加したり変更し、搭載重量に変化がある場合は、安全性と最適動作を確認するために調整ステップを繰り返してください。この製品は可動域内でスムーズかつ簡単に動く必要があり、設定した位置にしっかり固定されなければなりません。うまく動かないかまたは製品が設定した位置に固定されない場合には、スムーズで簡単な動きができるよう張力を緩めるかまたは強くするために調整指示に従ってください。お使いの製品や調整によっては、違いがはっきりするまで何度も回さなければならないこともあります。

重要说明! 本产品安装完成后需要调节张力。在尝试调节动作范围或张力之前, 确保所有设备都正确安装在产品上。任何时候在本产品上添加或改变设备导致装置总重量改变时, 您应该按照调整步骤重新调整, 以确保操作安全, 并处于最佳状态。产品应当能在整个动作范围内灵活自如。如果本产品很难移动, 或者不能固定在您设定的地方, 请按照调整说明松开或拧紧张力, 使产品在整个动作范围内灵活自如。根据您所用产品及调节方式, 可能需要旋转几圈后才能注意到差别。

Important!

You will need to adjust this product after installation is complete. **Make sure all your equipment is properly installed on the product before attempting adjustments.** This product should move smoothly and easily through the full range of motion and stay where you set it. If movements are too easy or difficult or if product does not stay in desired positions, follow the adjustment instructions to create smooth and easy movements. Depending on your product and the adjustment, it may take many turns to notice a difference. Any time equipment is added or removed from this product, resulting in a change in the weight of the mounted load, you should repeat these adjustment steps to ensure safe and optimum operation.

Increase Lift Strength

If the mounted weight is too heavy or this product does not stay up when raised, then you'll need to increase Lift Strength:

Decrease Lift Strength

If the mounted weight is too light or this product does not stay down when lowered, then you'll need to decrease Lift Strength:

14mm

1x

Las partes móviles pueden aplastar y cortar.

Antes de retirar el equipo, póngalo en la posición más elevada.

Ajuste siempre la tensión de elevación conforme a la carga aplicada.

NO cargue el carro por debajo de su capacidad mínima ni por encima de su capacidad máxima de peso.

Si no respeta esta advertencia, pueden producirse lesiones físicas graves y daños materiales.

Les parties en mouvement peuvent écraser et couper.

Levez l'équipement au maximum avant de l'enlever.

Régalez toujours la tension d'élévation afin de l'adapter à la charge appliquée.

NE chargez PAS le chariot en dessous de la charge minimale ou au-dessus de la charge maximale.

Il existe un risque de blessure corporelle ou d'endommagement matériel en cas de non respect de cet avertissement.

Bewegliche Teile können Quetschungen und Schnittverletzungen verursachen.

Vor dem Entfernen von Geräten sollte eine aufrechte Position sichergestellt werden.

Passen Sie die Lift-Spannung stets dem angebrachten Gewicht an.

Achten Sie stets darauf, die Werte für Mindest- und Höchstgewicht NICHT zu unter- bzw. überschreiten.

Die Missachtung dieser Warnung kann zu ernsthaften Verletzungen oder Sachschäden führen.

De bewegende delen kunnen kneuzingen en snijwonden veroorzaken.

Zet de apparatuur voor verwijdering volledig overeind.

Stel de liftspanning altijd af op de toegepaste belasting.

De minimum of de maximum belastingcapaciteit NIET overschrijden.

Als u deze instructie niet opvolgt, kan dat tot ernstig persoonlijk letsel en/of beschadiging van de apparatuur leiden.

Le parti mobili possono rompersi e tagliare.

Sollevare sino alla massima altezza prima di rimuovere l'apparecchiatura.

Regolare sempre la tensione di sollevamento per l'uso del carico applicato.

NON aggiungere peso né sotto la portata minima né sopra quella massima.

La mancata osservanza di questa avvertenza può causare infortuni gravi o danni alle cose.

WARNING

Impact Hazard!
Moving Parts can Crush and Cut.

Raise to the full up position before removing equipment.

Always adjust the lift tension to accommodate applied load.

DO NOT add weight below minimum or above maximum weight capacities.

Failure to heed this warning may result in serious personal injury or property damage.
