

ergotron[®]

moving you forward

Mosaic[™] Medical Cart

- **Standardize with confidence:** Consolidate healthcare operations with a single, standardized platform that customizes and adapts to meet the evolving needs of any hospital application.
- **Easy to maintain:** Designed with high-quality materials to withstand demanding healthcare environments and modularity that enables quick serviceability.
- **Caregiver satisfaction:** Enable caregivers to provide better patient care with a cart that prioritizes ergonomic comfort, ease of use, and customization to any workflow.
- **Improved asset utilization:** RhythmConnect[™] software delivers lower cost of ownership through tracking, managing, configuring, and remotely controlling assets at both an individual and fleet level, ensuring they are used optimally and reducing downtime.

EMPOWER CARE, SIMPLIFY MANAGEMENT

More than a mobile workstation, Mosaic is a customizable platform designed to help healthcare professionals thrive and deliver exceptional care. Its flexible design meets the ergonomic needs of caregivers, enhancing comfort and safety for greater efficiency and job satisfaction. Mosaic also empowers IT teams with a tech-forward approach that simplifies workstation management and adapts to evolving healthcare needs. By unifying and supporting every team, Mosaic streamlines workflows and enables professionals to focus on what matters most—improving patient care.

Ergotron's RhythmConnect software Mosaic carts include a FIPS 140-3 validated cryptographic module.

Mosaic carts are designed and manufactured in the USA, fulfilling Trade Agreement Act requirements to qualify for federal GSA and state contract pricing.

BENEFITS COMPARISON

Benefits for IT

- **Future-Ready:** Prepared for continuous improvement, the platform is built and designed to evolve by accommodating upgrades and innovations, allowing for redeployment of assets and cutting down on unnecessary replacement costs.
- **Fleet Management:** RhythmConnect FleetControl software revolutionizes cart management with remote diagnostics, real-time fleet monitoring, predictive maintenance, and actionable asset insights. A secure BLE Mesh network ensures seamless connectivity, while the open API integrates easily with existing platforms like ITSM.
- **Serviceability:** Simplify maintenance with a single inventory of replacement parts, modular components, and remote troubleshooting via WiFi or Bluetooth®, ensuring fast and efficient repairs and reducing downtime.
- **Quality:** Ergotron's industry-leading quality is evident in its ISO 9001 certification, with lift engines built to last through 100,000 cycles and a 5-year warranty that lowers the total cost of ownership.

Benefits for Caregivers

- **Effortless Maneuverability:** Larger casters, handles or grip points on all sides and a compact footprint enable caregivers to easily maneuver the cart through any environment, ensuring smooth mobility in any space.
- **Ergonomic Excellence:** With 40 years of ergonomic expertise and Constant Force Technology, caregivers can effortlessly adjust the cart's height as well as fine-tune the monitor and keyboard position for optimal comfort during long shifts.
- **Customizable Workflow:** Tailor the cart to fit any workflow with modular configurations, including multiple drawer tiers, accessory zones and a wide selection of add-ons, promoting a more organized and efficient workspace.
- **Time-Saving Technology:** The range of powered carts are packed with technology from external PC restart to RFID badge scan, USB fast-charge and on-board training videos to save caregivers' time. Upgrade to RhythmConnect and include one-touch ticketing.

Ergotron's RhythmConnect software and Mosaic Carts include a FIPS-validated cryptographic module called the Ergotron Cryptographic Module. This module provides the cryptographic services needed to meet the strict industry requirements for FIPS (Federal Information Processing Standard) 140-3, a security benchmark certification mandated by the U.S. federal government for products protecting sensitive but unclassified information through the use of cryptography.

FIPS 140-3 Inside Certificate #5026
