Isn't the next Big Thing already here? Truly. boldly offers what other high end, technical backrest chairs seemingly can't. Raise your game – and your back height – to new levels while also adjusting your lumbar region's firmness through Truly.'s lively, bowable polyback design.

TruFit™ Back System

The responsively-engineered TruFit™ Polyback system provides patent-pending working support. The perforated design is engineered to respond and recover, channeling flex and support to the areas that need it.

Backrest Adjustment

The back height adjusts and allows you to set the back to your preferred height with 4" of vertical back adjustment and 9 different positons.

Lumbar Adjustment

A cable-driven lumbar area tension adjustment allows for a generous lumbar support curve for multiple body types. The lumbar adjustment knob turns to fine tune the amount of support received.

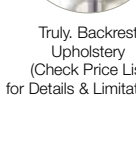

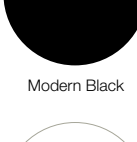

Stool Options

Counter-height work surface seating with adjustable or fixed foot rests available.
