

INTRODUCING

Kids are meant to move!

ERGOTRON®
EDUCATION

A body in motion stays in motion

~ Isaac Newton

How do we keep our students in motion?

Problem

Today's sedentary lifestyles are affecting our youth and their classroom performance. Compound this with pressures to sacrifice physical education time for more classroom time for the core subjects.

Challenge

How do we increase in-class physical activity to help our students' overall health and performance?

Introducing: the LearnFit™ Adjustable Standing Desk

Transform classrooms into active learning environments with on-demand height-adjustable student desks.

Studies show that introducing low-level physical activity into the classroom has a positive impact on student health, classroom engagement and academic performance.

HEALTH BENEFITS

INCREASE HEART RATE ¹

Oxygen is essential for brain function, and enhanced blood flow increases the amount of oxygen transported to the brain.

Heart Rate

Significant increase in heart rate from seated to standing work = 10 bpm (p = .012)

MAINTAIN INSULIN EFFECTIVENESS ¹

The low-level physical activity of standing requires many unconscious muscle contractions, which stimulates insulin signaling, resulting in more effective insulin function and overall more healthy long-term blood/glucose levels. ³

Blood Glucose*

*The concentration of sugar in the blood
Seated peak to trough 106 minutes
Standing peak to trough 60 minutes

BURN MORE CALORIES ¹

Studies show that standing throughout the day instead of just sitting can burn 40 extra calories per hour.

Subjects in the 85th percentile in weight for their age and gender who used the standing desks experienced a 32% increase in calorie expenditure compared with those in the control group. ²

Calorie (kcal) Expenditure

Significant increase in calorie expenditure from seated to standing work = 0.7 kcals/minute (p = .014)

- Encourages healthy student behavior that leads to physical and academic improvements
- Each student instantly and intuitively personalizes the desk to his or her preferred height using the hand lever
- No need for school staff to make adjustments before, during or after school hours
- One size fits all – height adjustment range is designed for students ages 9 through adult
- Mobile casters – easily roll the LearnFit desks to quickly reconfigure classrooms for small group collaborative breakouts, and easily return to full classroom configuration when done; the casters lock as well
- Rugged and proven design – includes exclusive patented Ergotron lift technology
- Optional storage basket holds class supplies

CLASSROOM ENGAGEMENT

Maintaining low-level physical activity – such as standing in the classroom – not only has positive health effects, but also results in greater student focus and attention. Increased blood circulation and oxygenation leads to alert and engaged students. “Standing actually improved attention, on-task behavior, alertness and classroom engagement.”²

ACADEMIC PERFORMANCE

Greater focus and engagement during everyday class time builds preparedness, combined with greater alertness during test time helps lead to greater academic performance. Sustained healthy metabolism leads to greater everyday classroom focus, which has a positive effect on test scores. “Children who are more active performed better on standardized tests, and showed greater attention and faster thinking skills than did children who are less active.”⁴

Empowering smart learning

About Ergotron

At the intersection of you and technology, Ergotron empowers smart learning with mobile device charging systems, height-adjustable student desks and AV mounts. Active designs that fit into the natural flow of students and staff. Charging systems store and secure mobile learning devices of today and tomorrow, while LearnFit height-adjustable student desks help students perform and express themselves academically.

LearnFit Adjustable Standing Desk		
Part # (color)	24-481-003 (white/silver)	24-458-200 (black)
Weight Capacity	≤ 15 lbs (7 kg)	≤ 15 lbs (7 kg)
Lift	15" (38,1 cm)	19.6" (50 cm)
Lift Mechanism	PrecisionHeight™ Technology	CFT™ Technology
Worksurface Height	33.5–48.5" (85–123 cm)	31.8–51.4" (81–131 cm)
Worksurface Dimensions	24"W x 22"D (61 x 56 cm)	24"W x 23"D (61 x 58 cm)
Base Footprint	24"W x 22"D (61 x 56 cm)	21.9" x 21.3" (56 x 54 cm)
Shipping Dimensions	30" x 26" x 14" (75 x 66 x 35 cm)	36.5" x 32.25" x 28.25" (93 x 82 x 72 cm)
Shipping Weight	40 lbs (20 kg)	78 lbs (35 kg)
Warranty	10 years	5 years
